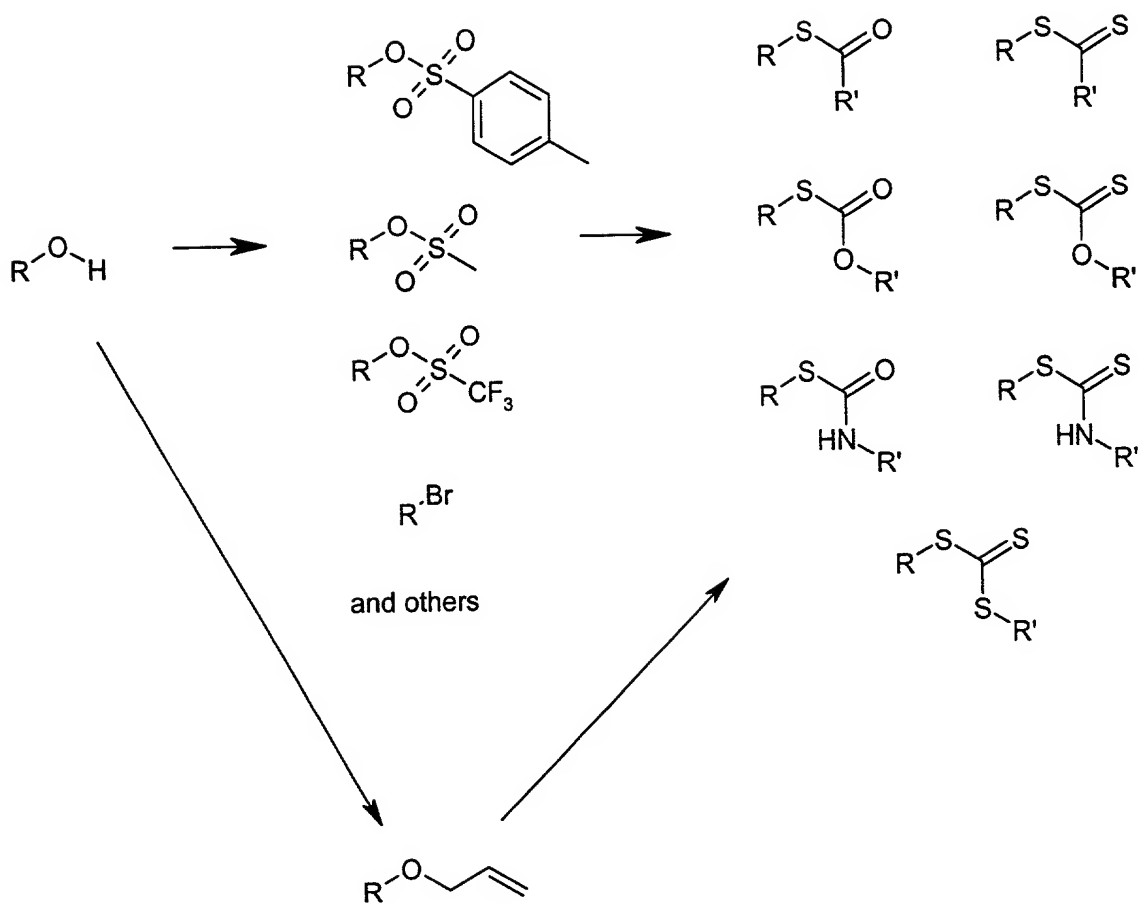

Figure 5

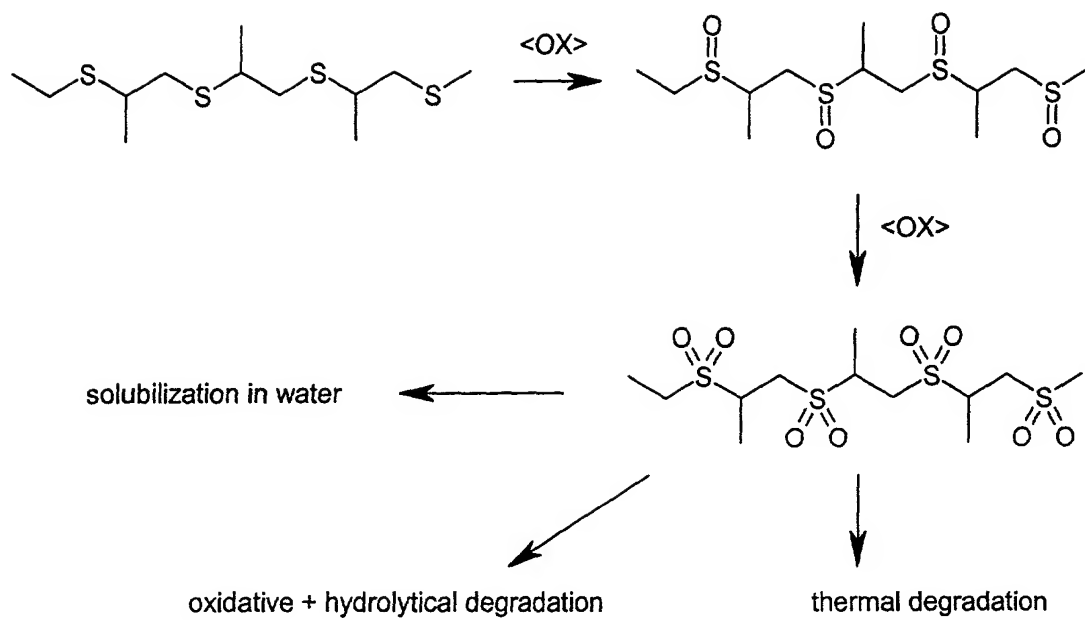

Figure 6

A high-contrast, black and white image showing a dense, textured, and somewhat abstract shape, possibly a biological specimen or a microscopic view, set against a white background. The shape is irregular and appears to be composed of many small, dark, granular elements. It has a central, darker, more solid-looking core that tapers outwards into a more diffuse, cloud-like or spray-like structure. The overall impression is one of intense detail and complex internal structure.
